RE: Permit Number 09-015 MSWLF, Construction Certification and Final Documentation  
Report for Layon Landfill Cells 1 and 2, Inarajan

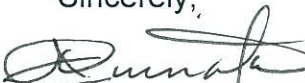

Hafa Adai Mr. Manning:

This is to officially notify you that the Guam Environmental Protection Agency is in receipt of the *Construction Certification and Final Documentation Report for Layon Landfill Cells 1 and 2* (Construction Certification Report), dated July 18, 2011. This report was prepared and certified by Mr. Bryan Fritzler, Quality Assurance Engineer, Vector Engineering, Incorporated, and submitted by Mr. Paul K. Baron, Professional Engineer/Construction Manager, Winzler and Kelly. The report documents the Construction Quality Assurance (CQA) performed for Layon Landfill Cells 1 and 2, and certifies that the Cell 1 and 2 liners were constructed in accordance with the requirements of Permit Number 09-015 MSWLF.

The Construction Certification Report has been reviewed for compliance with the Layon Landfill Permit Number 09-015 MSWLF, and Guam EPA has no adverse comments. Based on the information provided above, the permittees may proceed with the placement of the first layer of solid waste in the above-described portion of Cells 1 and 2.

Should you have any questions, please feel free to contact Ms. Conchita SN Taitano or Mr. Vincent J. Pereira at 475-1658/9.

Sincerely,

  
IVAN C. QUINATA  
Administrator
